Better cities begin at street level.

About SPARK TURN/ Great urban design includes street furniture that relates to the life surrounding it – to the humans who use it and the environment in which it exists. At SPARK TURN we incorporate this holistic concept into the design and fabrication of street furniture, focusing on both the aesthetic and the practical. We help create places for life to happen – for interaction and relaxation, inspiration and reflection.

SPARK TURN are proud to be a principal supplier of street furniture for all applications, providing clients the convenience of a single supply source for urban projects. We serve a wide ranging client base across all sectors of the community, including government, construction, design, education and private, all of which are provided the expertise, care and service that is the **SPARK TURN** brand.

*Take your project from
concept to completion,
with the support of our
industry specialists.*

Why SPARK TURN ?/ With over 30 years of excellence in providing landscape infrastructure products and projects, our skills, experience and service are second to none in the Australian market. Our team have dealt with virtually every circumstance in the industry, from creating one-off, highly specialised products and bespoke designs to completing large-scale project rollouts with challenging logistics.

*Your vision, your project,
our expertise - seamlessly
brought together.*

Project Consulting/ Discussing your project in its early stages saves valuable time and resources on the finished product. **SPARK TURN** are at the forefront of the urban landscape infrastructure industry and have the knowledge and expertise to help with every stage of your project. From research and concept development to final construction and installation detailing, enjoy peace of mind knowing that **SPARK TURN** will bring your project to life.

*The attention to detail
that your project
deserves is **SPARK TURN**
standard practice.*

Custom Projects/ **SPARK TURN** are bespoke urban furniture project specialists. With our expert knowledge of materials, processes, specification and installation we channel your project from concept to completion, and ensure that it will install properly, perform as expected and last the distance.

*With form and function
in mind, SPARK TURN have a
solution for every project.*

Standard Range/ SPARK TURN offer a wide selection of stock products, ranging in style from traditional to contemporary and utility focused to highly refined. We use the highest quality, sustainably sourced and best performing materials available, in a wide selection of finishes.

*Environmental
responsibility is a choice
that we make practical
and convenient for you.*

Environmental/ SPARK TURN encourage a culture of environmental sensitivity. We reduce the impact of our industry through sustainable practices, such as the use of recycled material in cast products which can, in turn, be recycled. We offer our clients a variety of recycled and certified timbers, as well as recycled plastics and composite materials.

*We invest time, space
and freedom into igniting
the imagination.*

SPARKLab TURN/ The place where inspiration meets research -
where resident designers, artists and innovators explore
concepts, create prototypes and trial new processes.
